To connect your Mitsubishi Wireless internet ready TV to your wireless home network when using an AzureWave AW-NU231, follow the steps below:

1) Connect an Azurewave AW-NU231 USB wireless adapter to the TV’s USB port

![USB Wireless Adapter](image)

2) Open the Setup > Network menu. After a few seconds, detected networks will appear listed on the screen in order of signal strength.

![Network Menu](image)

3) Highlight the desired network and press ENTER to connect. A check will appear next to the connected network.
